

# Montana Department of Environmental Quality

## RECRUITMENT BROCHURE

*The Department of  
Environmental Quality's  
mission is to protect, sustain,  
and improve a clean and  
healthful environment to  
benefit present and future  
generations.*

February 2007

### Reaching potential with our employees

DEQ employees are an important asset. We will empower them to exercise professional judgment in carrying out their duties. We will provide them with a safe work place and the training and tools necessary to achieve DEQ's mission.

We encourage team efforts and use of the expertise of DEQ's employees to find solutions that meet the challenges we face.

### Why join us?

*Be a part of something big...*

### Working for a clean and healthful environment

We recognize that most environmental regulations and standards are intended to protect the public health by preventing serious injury or illness.

We recognize that the people of Montana value a quality environment and encourage everyone to share responsibility to protect its quality.

We will encourage innovative thinking and seek practical, long-term solutions that serve the public interest and minimize the environmental effects of proposed actions.

We will seek cost-effective ways to minimize impacts to the environment and will identify for decision makers and the public any legal or institutional barriers that keep them from being used.
